

Description

Silver reflective tape with good retro-reflective performance is best suited for HiVis vests, jackets, pants etc. It is made with polycotton backing and micro-beads layer on the surface. Retroreflection of micro-beads provides better safety for the workers. Available in 1", 2", 3", 4" width.

Product Construction

This Reflective Material is a Poly-cotton Fabric coated with a layer of resin with numerous glass micro-lenses impregnated with a special glue into this layer. The light reflects from these micro-lenses and comes back to a car (or other source of light) making the person wearing reflective tape more visual in the dark.
