## Important Notice

Type of work environment, exposure conditions and maintenance have an impact on reflective performance. Please test each tape according to appropriate care instructions required for the garment.

High-visibility clothing made with reflective material should be maintained in good condition and inspected regularly for damage or deterioration.

## Description

Lime-Yellow or other colour Vinyl (PVC) reflective tape uses prismatic technology to enhance reflectivity in wet conditions. Numerous microprisms are safely protected under the layer of polymeric film, what allows for workers to be more visible under the rain. This trim can be cleaned from dirt or oil simply by wiping it with a cloth. Recommended to sew on reflective vests of road workers and road police jackets/pants.
