

Description

Yellow-Silver oxford reflective trim is very popular for safety vests. It is made with reflective tape sewn onto colour 100% polyester oxford fabric. Ideal for use in public utilities jackets, trousers, vests, bibs and other for higher safety. The width of colour backing and silver insert may be customized. Yellow or Orange backing is available.

Product Construction

This Reflective Material is a Textile Fabric coated with a layer of resin with numerous glass micro-lenses impregnated with a special glue into this layer. The light reflects from these micro-lenses and comes back to a car (or other source of light) making the person wearing reflective tape more visual in the dark.

Product Detailed Information

Material	100% Polyester
Finish	-
Colour	Yellow-Silver
Reflectivity, R	380 cd/m ²
Industrial wash	-
Roll, Width	50 mm
Roll, Length	100 meters
Roll, Weight	1.4 kgs
