Important Notice

Type of work environment, exposure conditions and maintenance have an impact on reflective performance. Please test each tape according to appropriate care instructions required for the garment.

High-visibility clothing made with reflective material should be maintained in good condition and inspected regularly for damage or deterioration.

Description

Yellow (Lime) reflective tape offers flame retardant protection certified by EN 469. High visibility certified by EN 20471. Can be sewn on FR-clothing or Firefighters jacket/pants. We produce and sell XM-7104 Flame resistant (Flame retardant) reflective tape with high quality and at very competitive price. Our strict quality control provides guaranteed quality of Yellow Flame resistant tape even after 50 domestic wash cycles.

Product Construction

This Reflective Material is a Cotton Fabric coated with a layer of resin with numerous glass micro-lenses impregnated with a special glue into this layer. The light reflects from these micro-lenses and comes back to a car (or other source of light) making the person wearing reflective tape more visible in the dark.
