

Description

Segmented Reflective tape XM-8104/10C in Yellow colour with Flame Resistant properties. Designed for Heat Transfer application on FR-workwear and Firefighters clothing. Segmented design of the tape gives more flexibility and improves air-circulation from the body of the wearer. It is used for FR-rainwear (jacket, pants etc) or FR-knitwear (polo, sweatshirt, hoodie etc), where stitching is not allowed. Use heat press or iron to apply this FR-tape to your FR-clothing.

Product Construction

This Reflective Material is a PU+Polyester resin with numerous glass micro-lenses impregnated into adhesive layer and placed on a film liner. The light reflects from these micro-lenses and comes back to a car (or other source of light) making the person wearing reflective tape more visible in the dark.

Product Detailed Information

Material	FR PU+Polyester
Finish	Flame retardant
Colour	Yellow
Industrial wash	-
Roll, Width	50 mm
Roll, Length	100 meters
Roll, Weight	2.68 kgs

Care Instructions

	Wash	Machine Wash Warm, 40°C
	Bleach	Do not bleach
	Dry	Tumble Dry Low, 55°C
	Dry-clean	Do not dry clean
	Iron	Iron at low temperature, 110°C

Important Notice

Type of work environment, exposure conditions and maintenance have an impact on reflective performance. Please test each tape according to appropriate care instructions required for the garment.

High-visibility clothing made with reflective material should be maintained in good condition and inspected regularly for damage or deterioration.
