Important Notice

Type of work environment, exposure conditions and maintenance have an impact on reflective performance. Please test each tape according to appropriate care instructions required for the garment.

High-visibility clothing made with reflective material should be maintained in good condition and inspected regularly for damage or deterioration.

Description

Introducing the new XM-6007C Hex Reflective Tape for high visibility clothing. With its innovative segmented Hex design, this tape provides enhanced visibility from multiple angles, increasing safety in low-light conditions.

The XM-6007C Hex tape is also designed to withstand washing at temperatures up to 50×60°C, meeting the EN 20471 standard. Additionally, the tape can be dry cleaned up to 30 times (ISO 3175).

Product Construction

Polyester fabric coated with a resin layer with embedded glass micro-lenses that reflect light back to its source, making the wearer visible in the dark.

Product Detailed Information

Material	100% Polyester
Finish	-
Colour	Silver
Industrial wash	-
Roll, Width	50 mm
Roll, Length	100 meters
Roll, Weight	1.55 kg

Product Certifications

NFPA 2112	-
ANSI 107	-
CSA Z96	-
EN 20471	50×60°C ISO 6330 30x dry clean ISO 3175
