Important Notice

Type of work environment, exposure conditions and maintenance have an impact on reflective performance. Please test each tape according to appropriate care instructions required for the garment.

High-visibility clothing made with reflective material should be maintained in good condition and inspected regularly for damage or deterioration.

Description

Segmented silver heat transfer reflective material with excellent retro-reflective properties. Features extra breathability due to segmented design. Recommended for use with EN 20471 knitwear to provide safe, functional and comfortable workwear. Using a heat press or simple ironing, you can add this reflective trim to workwear for added safety and style in the workplace.

Product Construction

Polyester fabric coated with a resin layer with embedded glass micro-lenses that reflect light back to its source, making the wearer visible in the dark.
