

FLAME RESISTANT REFLECTIVE TAPE	Backing	EN 20471	EN 469	EN 15384	Domestic wash
XM-8011	Malta HT	PU			50+ WASH

Description

Reflective tape XM-8011 in Silver colour with FR properties. Designed for Heat Transfer application on FR-workwear and Firefighters clothing. XM-8011 is a high-tech material and its adhesive properties vary depending on type of fr fabric. We advise you before the first use to check the grip of the tape by applying it on a certain FR-clothing. It is also useful to make trial washes of fr-clothing with applied reflective tape.

Product Construction

This reflective material is a PU+polyester resin with numerous glass micro-lenses embedded in the adhesive layer and placed on a film liner. The light reflects from these micro-lenses back to the light source (car headlights etc.), making the person wearing reflective tape more visible in the dark.
